Subject: stop tar sands mining expansion

To: "danadean@utah.gov" <[danadean@utah.gov](mailto:danadean@utah.gov)>

An expansion of tar sands mining large should have a full environmental review, not PBR (permit by rule). The public needs to be involved in the decision. Tar sands are dirty and we can't afford Colorado River watershed further ruined, or more carbon to be dumped into our atmosphere.

Sincerely,  
Elizabeth Hartsoch  
Bellingham, WA

Hello Ms. Hartsoch,

Thank you for your comment, we will add it to the file. If you are specifically concerned about the Permit by Rule, that is with the Division of Water Quality, not DOGM. We have a completely separate permitting action and have completed a full environmental review. You can find our review and other documents at [ogm.utah.gov](http://ogm.utah.gov).

There will be a public hearing on June 30, 2015 from 9-11 am in the Natural Resources Building in SLC in response to public comment regarding our permit.

Thank you,

Dana Dean, P.E.  
Associate Director - Mining  
Utah Division of Oil, Gas and Mining
